

# *Michala's* July 14 thru Sept. 7

## JOURNEY

**Michala B. Pepper**, a Princeton native, studied fine art and art history at Centre College with an emphasis in painting and drawing. Charcoal, oils, mixed media, photography, watercolor, pencil & crayon, and pastels are her mediums. She also studied working with hot glass. Her passion inspired her travels to France and Italy, where she studied art & architecture. This exhibit documents her life as an artist through sunsets that have touched her soul, busy streets and sacred cathedrals of Europe, lush fields of western Kentucky, and the elegance of an exotic bouquet. The spirit of the artist's fond memory is forever captured through the works of art. Michala is the Director of the Princeton Art Guild, collaborating with other artists and organizations in an effort to encourage a thriving community of artists and appreciation of art within Princeton.
